

General Chair (ASWEC)

M. Ali Babar, University of Adelaide

General Chair (ASW)

Haifeng Shen, Flinders University

Program Chairs

He (Jason) Zhang, Nanjing University
 Hoa Khanh Dam, University of Wollongong
 Stuart Marshall, Victoria University of Wellington

Short Paper Chairs

Matthias Galster, Canterbury University
 Hongyu Zhang, University of New Castle

Industry Track Chairs

Seyit.Camtepe, CSIRO/Data61
 Hung Nguyen, TRC, Adelaide University,

Organization Committee Chairs

Mingyu Guo, University of Adelaide
 Patanamon Thongtanunam, University of Adelaide
 Chakkrit (Kla) Tantithamthavorn, University of Adelaide

Industry Liaison Chairs

Matt Thyer, DSTO, Australia

Premier Work Chairs

Mansoor Zahedi, IT University of Copenhagen

Workshop Chairs

Christoph Treude, University of Adelaide

Tutorial Chairs

Asif Gill, University of Technology
 Zhenchang Xing, Australian National University

Hot Off the Press Chairs

Aldeida Aleti, Monash University
 Iman Avazpour, Deakin University
 Georg Grossmann, University of South Australia

Posters Chairs

Muneera Bano, Swinburne University
 Xiwei (Sherry) Xu, CSIRO/Data61

Tools Demo & Data Chairs

Qiang (Nathan) He, Swinburne University
 Lina Yao, University of New South Wales

Publicity Chairs

Sherlock Licorish, University of Otago
 Cheng Zhang, Anhui University
 Rui Zhou, Swinburne University

Electronic Media Chairs

Nguyen Tran, University of Adelaide
 Faheem Ullah, University of Adelaide

“Engineering Software Services with Contemporary Paradigms and Technologies”

The Australasian Software Week brings together three exciting events for sharing ideas and knowledge for engineering software services with contemporary paradigms and technologies.

The **25th Australasian Software Engineering Conference (ASWEC 2018)** that is a leading platform for sharing and discussing innovative software engineering research and practice.

The **Industry-Research Collaboration Day** will feature talks on the state-of-the-art practices by leading practitioners and researchers. This day will promote collaboration and cross-fertilization of ideas and knowledge among researchers, practitioners, government employees, and educators.

The **Cyber Security Adelaide Event** will be an opportunity to present and discuss inspirations, opportunities, challenges, and roadmap for research and practice of Cyber Security to enable resilient digitalised Australian Citizens, Communities, Businesses, and Governments.

KEYNOTE SPEAKERS:

The Australasian Software Engineering Week will feature several keynote speeches by leading researchers and practitioners (Alphabetical).

- **Dr Cristina Cifuentes**, Oracle Labs, Australia
- **Professor John Grundy**, Monash University, Australia
- **Dr Tony Lindsay**, STELaRLab, Lockheed Martin, Australia
- **Professor Sam Malek**, University of California, Irvine, USA
- **Professor Martin Robillard**, McGill University, Canada
- **Professor Abhik Roychoudhury**, NUS, Singapore

Submission Dates

Full Papers: 29 July 2018
 Short Papers: 9 September 2018
 Industry Track: 12 August 2018
 Hot Off the Track: 9 September, 2018
 Workshops Proposals: 5 August 2018
 Tutorial Proposals: 5 August 2018

Planned Program for the Week

- **Monday, November 26, 2018**— HDR/ECR Symposium, Tutorials, Workshops
- **Tuesday, November 27, 2018**—Full & Short Papers, Premier Work, and Education Tracks
- **Wednesday, November 28, 2018**— Premier Work and Industry/Government Tracks
- **Thursday, November 29, 2018**—Industry/Government Tracks and Cyber Security Track
- **Friday, November 30, 2018**—Cyber Security Track
